WOMEN AMONG THE KILLED
British Aeroplanes Pursue the Raiders but They Succeed in Making Escape.

SOUTH END, England, May 27.—Another Zeppelin airship raid was made upon this town last night and it is reported that three persons were killed by bombs which were dropped. The entire town was illuminated by the bursting of shells dropped by the aircraft. The material damage done appears to have been less than on the last raid.

A revised count shows that only one person was killed. Mrs. May Fabin, a number of persons were injured. Some reports say that two and others that three Zeppelins took part in the raid. It is, however, impossible to give the number accurately, because of heavy clouds at the time of the attack.

The noise of the propellers of the airships was first heard shortly before 11 o'clock. Then came at once the shock of the explosions, as the bombs rained down from above. Some of the missiles were incendiary and threw out bright flares of light.

Crowds assembled in the streets to view the raiders. The only fatality was the killing of Mrs. Fabin, which occurred as the woman was leaving a street car.

British aeroplanes went up in pursuit of the raiders, but were not successful in overtaking them. Some time later two Zeppelins were seen over Burnham-on-Crouch, seven miles to the northeast of South End, but no more bombs were dropped.

OFFICIAL STATEMENT OF THE AIRSHIP RAID

LONDON, May 27.—The secretary of the admiralty has issued a statement on the South End raid, which, contrary to the despatches from South End, says two women were killed in the air raid last night. The statement follows:

"Late last night a Zeppelin visited the east coast and dropped bombs on South End. The casualties reported today are two women killed and one child badly injured. The aeroplanes and aeroplanes proceeded in pursuit of the enemy but the Zeppelin succeeded in escaping."

GREAT BATTLE SOON TO OCCUR IN GALICIA

LONDON, May 27.—Notwithstanding the superb weather the contenders in the western arena of hostilities, realizing the terrible losses and the insignificant advance, have reverted to the tactics of the winter and it is in Galicia in the east, the Dardanelles and perhaps the Italo-Austrian front after their eastward spurt, the German army headquarters today issued the following statement:

"Regardless of their great failure of May 25 the French repeated the attempts to break through our line between Yverville and the Lorette heights. Very strong forces were brought forward for a storm attack along a narrow stretch of six miles but they were repulsed. We are in full possession of our positions. An uncommonly large number of fallen soldiers are lying in front of our trenches. Further French attacks were directed late in the evening against our line of Souchez-Nueville. South of Souchez the battle has not yet come to a conclusion. During the reconnaissance expedition of the 24th we took one officer and twenty-five Belgian prisoners. Further enemy advances at Soissons and in the forest of LePretre were repulsed. In the east there has been no change. In the southeast an attack by our troops progresses to the northeast of Premys and in the district of Str."

"Belgian troops last night repulsed two German attacks, one north and the other south of Dixmude. The first was driven back by counter attacks and the second by artillery fire. To the north of Arras two engagements took place. Southwest of Souchez, we took possession of one of the enemy's trenches near the chateau of Carulien, taking at the same time some prisoners including one officer. East of Neuville St. Vaast the Germans advanced to an attack but they were checked by our artillery. At various points along the front, notably near Rheims and in the Vosges there were yesterday artillery engagements."

MANY GERMAN OFFICERS KILLED WHILE BATHING

LONDON, May 27.—The recital of occurrences at the front, written by an eye witness, says that a building in LaBasse, used by the Germans as a bathing establishment, was hit recently by one of our howitzer shells, while it was full of German officers. The eye witness relates that "between twenty and thirty of them were killed or wounded. Not far from Ypres our anti-aircraft guns brought down a hostile aeroplane which fell headlong on parapet of German lines. Both the pilot and the observer must have been instantly killed. The French, noting that the falling machine was exciting considerable interest among the occupants of the trench, opened fire and waited until a sufficient number of Germans had collected when they opened fire on them."

ITALIANS CROSS RIVER AFTER A SHARP FIGHT

GENEVA, via Paris, May 27.—A strong Italian advance guard today crossed the Isonzo river after a sharp fight with an Austrian force and arrived before the town of Monfalcone, which is thirty miles from the Austrian seaport of Trieste. The first of the Austrian wounded are now arriving at the latter place. The Italians also attacked at several points along the forty miles of the Carinthian frontier. A battle between the Italians and Austrians now is raging around Ploken and also west of the Pradid pass. In the Adige the fighting has been limited to skirmishes. Italian forces which penetrated the Tyrol to Candino and other Italian arms which captured Cormons have reconstructed the railroad and are now marching on Gorz, the capital of the Austrian crownland of Gorz and Gradisca.

Both the Austrian and Italian aviation services are very active along the frontier. Many machines have been gathered at Venice to protect that city. A Parsival aircraft arrived by rail at Trent yesterday from Munich, Bavaria. A Zeppelin dirigible

Many remember him as they knew him during his service in the army as a faithful soldier and a good friend. He was engaged in different business concerns, but was perhaps best known for his efficient services in the city postoffice. He was also city clerk, after his return from the army.

In 1906 he went to Washington, D. C., where he was engaged in the insurance business for several years. In 1912 he went to New York City and accepted a position as postal clerk in the Grand Central postoffice. He remained in New York City, until in January of this month, when he was transferred to Brenham, Tex.

Mr. Alexander is survived by his mother, Mrs. Rebecca Alexander and by his half brother, J. T. Alexander, both of this city. He was a nephew of Wilson Waldeck and Mrs. Gertrude Rector, who also reside here. His death is particularly sad, as he had just prepared a new home for his mother who was to join him in Texas in a few weeks.

BANK LOSES

In the United States Circuit Court of Appeals as the Case Went Up Wrong.

RICHMOND, Va., May 27.—Petition of the Home Bank for Savings, of Clarksburg, asking the United States Circuit court of appeals to set aside and reverse the proceedings of the district court there in bankruptcy case has been dismissed by the higher tribunal, which held that the matter came up in the shape of an appeal. The bank asserted that it was entitled to a judgment against the petitioners, based on an attachment sued out prior to the time this party was adjudicated a bankrupt, but the district court refused to recognize the priority of the claim on the ground that the attachment proceedings took place within four months of the date of adjudication of bankruptcy.

It is understood that it is now too late for appeal to be made.

The American naval attaché at London has been sent to Liverpool to examine the Nebraska's hull.

KILLING FROSTS

Throughout Lake Region and the Middle Atlantic States Break May Record.

WASHINGTON, May 27.—Killing frosts throughout the lake region and the middle Atlantic states broke May weather records of many years last night and promised a seasonably cold weather for the next twenty-four hours. Reports to the weather bureau this morning indicate heavy damage to the fruits and vegetables throughout that section, particularly in the interior of New York. While frost is probable again tonight in the lower regions, New England and the middle Atlantic states, warmer weather is promised Friday in the path of fair weather from the Ohio valley and the lower lake regions. Warm showers prevailed over the central valleys.

CALM CONFIDENCE

Follows Stormy Ciamor in the City of Rome for Entrance into the War.

ROME, via Paris, May 27.—Except for the flags, which fly not only from every house but almost from every window, Rome gives little indication of being the capital of a country which has entered upon a great war. While the entire nation was eager for the conflict a spirit of calm confidence has followed the stormy scenes which were enacted from the time the Salandra cabinet resigned until it was restored to power and the demonstrations of rejoicing which followed until the opening of hostilities. It is apparent that the nation is preparing to make, without complaint, whatever sacrifice the war may bring.

STIRRING APPEAL IS MADE

By Dr. Hamilton in His Sermon any Many Answer the Call to Come to Christ.

DECISIONS.

Wednesday night 79
Previously reported 2,418
Total 2,497

ANNOUNCEMENTS.

Thursday Evening.
7:30 o'clock sermon subject, "The Marks of Christ." Bell telephone operators will attend in a body.

The power of the old Gospel to attract and hold men has never been more forcibly demonstrated than during the revival campaign now on in the city of Clarksburg. Its vital, stirring influence has something about it that can be found nowhere else. It seems impossible to close the tabernacle meetings and Evangelist Hamilton has been preaching farewell sermons ever since last Sunday night and still they go on.

In spite of the rain last night the tabernacle was almost filled and there was not the least indication that the interest was receding. On the contrary there was a deepening interest manifest that is telling for good and the conversion of many.

The number of decisions has now reached 2,497, this total being well Wednesday night by seventy-nine decisions. As on previous nights they came from all walks of life. Prominent business men, artisans, society people and from everywhere they came. The stranger within the gates impressed and thoughtful did not wait until he got into his home, but made haste for the next twenty-four hours. Reports to the weather bureau this morning indicate heavy damage to the fruits and vegetables throughout that section, particularly in the interior of New York. While frost is probable again tonight in the lower regions, New England and the middle Atlantic states, warmer weather is promised Friday in the path of fair weather from the Ohio valley and the lower lake regions. Warm showers prevailed over the central valleys.

One of the interesting features of the meeting last night was the attendance of the entire force of the S. C. Watkins Produce Company, very one from the proprietors to the wagon men were there, thirty-six in all. They gave a very interesting account of what had happened in their city since the meeting began. When the campaign started eight of the force were Christians. Now there are thirty-three out of the thirty-six making an active profession of the Christian faith. The whole establishment has been transformed as a result of their appreciation of what has been done by the presentation of Dr. Hamilton and party a purse of \$24. They had their own teams for personal work, attended the noon luncheons in a body almost every day and took an active interest in the success of the meetings in every way possible.

Dr. Hamilton's sermon last night was "High and Lifted Up," taken from the Bible account of Isaiah's vision "in the year that King Uzziah died." It was an appeal for a higher type of consecration, a purpose to do service, a willingness to obey God and what he showed one to do. It was of a nature to build up the Christian life as well as warn the unsaved. Because of the high tide of interest and the insistent demand of the ministers and committees, it was decided to continue for at least another night. The interest and results of tonight will determine whether another service will be held.

The evangelistic party is thinning out. Mr. Young, soloist; Mr. Roper, pianist; Mr. Taylor, shop man; Miss Straw, pianist, have all gone to their homes. The other members of the party will leave as soon as the meetings close.

Dr. Hamilton has announced that for tonight his subject will be "The Marks of the Lord Jesus." The operators of the Bell Telephone Company will attend in a body.
